

Student Accessibility Services (SAS)

Student Accessibility Services (SAS) provides compassionate, individualized services for students with disabilities with an integrated support structure, including the facilitation of academic accommodations, programming and support services.

We assist students with disabilities to reach their full potential with a service that aims for students to experience full participation, autonomy, empowerment and equity.

Services Include:

- Academic Accommodations
- Learning Strategies
- Assistive Technologies
- Student Support Specialist
- Transition Program
- Deaf and Hard of Hearing Supports
- Volunteer Note-taking Support
- Test and Exam Administration

Upcoming Programming:

SAS 101 Summer Sessions

Join us for [SAS 101 Summer Sessions](#), where parents/caregivers and students will learn about services and supports that are offered by SAS. Parents/caregivers and students will attend virtual sessions at the same time, but will move to separate “breakout rooms” for a duration of the session.

MacStart Sessions

[MacStart](#) is designed to support student’s academic journey if they are new to SAS, or considering registering with SAS. By completing the MacStart sessions, students will learn about different university resources, understand and develop learning skills as they pertain to the post-secondary environment, and will review and have the opportunity to strengthen self-advocacy skills.
